

PRODUCT INFORMATION SHEET

Torch

Product description

The torch is designed to remove old coatings and paints, to assemble pipes and other plastic components, for foil wrapping of car bodies and windows, as well as for torching, drying and heating. It will also work well in soldering, tinning and welding. Designed for professional use. The air flow control and the multi-stage heating temperature setting allow to optimally adjust steam parameters according to the needs. An additional cooling down function before switching off significantly extends the heaters' lifetime.

Charakteristics

- LCD screen enables to set the required temperature with precise accuracy;
- 12 levels of temperature control allow perfect adaptation to the type of work:
 - speed I: 250 l/min / 50°C, 100°C, 150°C, 250°C, 350°C, 450°C;
 - speed II: 550 l/min / 100°C, 200°C, 300°C, 400°C, 500°C, 600°C;
- cooling: 280 l/min / 50°C - when the work is finished, the cooling mode starts automatically, which cools the heater, thus significantly extending the life of the device;
- equipped with a thermostat to prevent overheating;
- ABS plastic body;
- a dual-component, ergonomic handle with a profiled TPR anti-slip surface ensures less hand fatigue, even during longer operation;
- a built-in base and a casing profiled in a way that allows the tool to be put away make it possible to place the torch on the table and work with both hands;
- high quality of workmanship guarantees failure-free operation;
- pull-out plug for easy storage;
- additional accessories included: 4 nozzles with different cross-sections, power cable H05RR-R 2G with a diameter of 1,0 mm² and a length of 2 m.

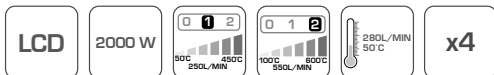

Technical data

Power: 2000 W

Power supply: 230 V
