

## PRODUCT INFORMATION SHEET

### Cylinder leak tester

#### Product description

The cylinder leak tester used in petrol engines for troubleshooting of such faults as cylinder head cracks, worn piston rings and valves or burnt seals. Indicates the degree of cylinder leakage and engine pressure. The easy to read pressure gauge scales for easy reading of the measurement result. The indicator is made of damage-resistant yet lightweight materials. In addition, the indicators are covered with a shock-absorbing rubber shield. The parts are equipped with quick couplings for easy and quick installation. Mainly used in automotive service garages.

#### Characteristics:

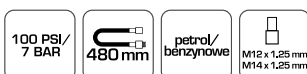

- for use with any petrol engine;
- maximum pressure 7 BAR / 100 PSI;
- flexible 480 mm rubber hose with quick-coupling to reach even hard-to-reach places;
- rigid tip with a rubber seal;
- for M12 x 26 mm and M14 x 26 mm sockets;
- packed in a plastic case for easy transport and storage of individual components.

#### The kit includes:

Analogue manometer - 2 pcs.  
Flexible hoses - 2 pcs.  
Quick couplings - 2 pcs.
