

PRODUCT INFORMATION SHEET

Gas burner

Product description

Gas burner for use in households, gastronomy, craft and car workshops, etc. to light a grill, fireplace or fire. Helpful in defrosting, sunbathing, removing paints, modeling, any work that requires heating.

Characteristics

- burner power: 1.0 kW;
- maximum operating temperature: 1300° C;
- gas-powered butane;
- cylinder connection to the TWIST burner - commonly used, for example, in tourist cookers;
- piezoelectric ignition - pressing the button causes a spark which ignites the gas stream;
- to work in any position at an angle of 360 °, which enables work in hard-to-reach places;
- has a flame adjustment knob;
- START / STOP button with a built-in valve allows the burner to be easily turned on / off at any time;
- portable and safe to use.
