

PRODUCT INFORMATION SHEET

Gas burner

Product description

Gas burner with a tank for use in households, gastronomy, craft and car workshops, etc. to light a grill, fireplace or fire. Helpful in defrosting, sunbathing, removing paints, modeling, any work that requires heating.

Characteristics

- burner power: 1.0 kW;
- maximum operating temperature: 1300° C;
- gas-powered butane;
- has a 15 ml tank;
- piezoelectric ignition - pressing the button causes a spark which ignites the gas stream;
- to work in any position at an angle of 360 °, which enables work in hard-to-reach places;
- has a flame adjustment knob;
- guarantee of safe use thanks to a special button that prevents accidental switching on;
- a stable base enables the burner to be safely put down;
- an additional trigger lock button enables continuous operation without holding the trigger;
- portable and safe to use.
