

PRODUCT INFORMATION SHEET

200 mm battery suction cup with a manometer

Product description

A battery suction cup with a manometer is an indispensable tool designed for professionals. Carefully designed, it offers exceptional performance and versatility, meeting the requirements of even the most demanding users. Using Li-Ion battery technology with a voltage of 3.6 V and a capacity of 1.2 Ah, it ensures long-term and reliable operation. The device provides fast and convenient charging via the USB-C connector. In addition, the integrated automatic air replenishment function ensures constant suction power, which increases the precision and efficiency of work.

Characteristics

- material: aluminium + rubber;
- suction cup diameter: 200 mm;
- voltage: 3.6 V;
- battery capacity: 1.2 Ah;
- battery type: Li-Ion;
- charging: USB-C;
- maximum load: 150 kg;
- equipped with a manometer;
- special features: automatic air replenishment.
