

PRODUCT INFORMATION SHEET

Wheel intervention socket set 10 pcs, 1/2"

Product description

A set of sockets designed for maximum functionality and durability is a key solution for mechanics who encounter the challenges of damaged or seized fasteners. This set, including 10 elements, is compatible with 1/2-inch drives. Dedicated to professional car workshops.

Characteristics

- made of high quality CrMo alloy steel ensuring long life time, durability and resistance to deformation and cracking;
- 1/2" output drive;
- durable, designed for continuous operation under heavy load;
- colourful finish of the sockets ensuring quick identification of sizes;
- plastic box for easy storage;
- set includes:
 - sockets intended for unscrewing and screwing aluminum rim nuts in sizes: 17 mm, 19 mm, 21 mm
 - spiral sockets for removing heavily damaged heads, nuts and screws in sizes: 17 mm, 19 mm, 21 mm
 - 75 mm extension piece
 - universal socket 18.5 mm/19.5 mm for nuts with a missing chrome cover or a deformed head
 - universal socket 20.5 mm/21.5 mm for nuts with a missing chrome cover or a deformed head
 - 12 mm punch.
