

PRODUCT INFORMATION SHEET

Workshop lamp 360 lm

Product description

A flat workshop lamp for illuminating narrow spaces for every mechanic, electrician, plumber or DIY enthusiast. It has bright and energy-saving LEDs. Two levels of lighting intensity allow the device to be suited for different working conditions. The pulsating light function allows the lamp to be used for warning purposes, e.g. to mark a car standing on the road in the dark. It has a function of smooth regulation of lighting intensity. Holding the button dims the light, stopped when the button is released. A strong magnet and a hook for hanging make it possible to free up hands for work. The lamp shows the charge level when pressing the button. It is powered by high-quality, capacious batteries, charged via a USB-C port. It is resistant to ingress of water and dust according to the IP rating. The lightweight and compact design of the lamp makes it easy to carry and store. The surface of housing is resistant to dirt and allows the lamp to be held securely in a hand.

Characteristics

Luminous flux of light - 360 lm;
 Power supply - Li-Ion battery, 1,800 mAh, 3.7 V;
 Charging time - 5 H;
 Two light intensities - luminous flux / operating time / range:
 1. 360 lm/ 3.5 h, 25 m,
 2. 180 lm/8h, 25 m;
 Stroboscopic operating mode;
 Smooth regulation of lighting intensity;
 Waterproof class - IPX4
 Mounting - magnet and hook for hanging;
 Charging port – USB-C.
