

PRODUCT INFORMATION SHEET

Tile leveling clamps 3 mm, 201 pcs

Product description

A system for fast and precise levelling of tiles with a defined grout size, based on clips and wedges. The clever design of the clamp allows the clip to be easily inserted under the tile, even when spreading the adhesive with a small comb. Thanks to the use of resistant materials, the clips can carry high loads, without worry about the clip breaking during crimping. Wedges with large and robust teeth ensure permanent and rigid crimping. The system's reusable crimping tongs have a strong construction made of durable materials.

Characteristics

- Clips thickness - 3 mm
- 201 pcs.
- Set includes clips, clamps, crimping tongs.
