

## PRODUCT INFORMATION SHEET

### Ceramic Saw Blade, Carbide Coating, 78 mm

#### Product description

The blade is designed to be fitted to a multitool, such as the HT2E230-0MT. It can be used for sanding of stoneware and ceramic tiles. The high-grade HM/TCT tungsten coating allows for efficient cutting and ensures tool durability. The blade material provides flexibility and resistance to damage. The width and shape allows for effective work on larger tiles. The universal attachment of the working tip fits most multitools on the market.

#### Characteristics

- intended for: cutting of building materials such as concrete, ceramic tiles, etc.
- blade width - 78 mm;
- material - steel with HM tungsten carbide layer.
