

## 18V brushless reciprocating saw + 2Ah battery

### Product description

An efficient tool for fast cutting under heavy load of various materials, such as wood, metal, plastics. Perfect for construction and renovation works. The rotational speed of 0-3000 RPM and the saw blade stroke of 28 mm allow for faster and effective work. Smooth change of rotational speed and a large range of adjustment of foot length and tilt give full control over the cutting activity. The brushless motor with its innovative design, thanks to the elimination of brush friction and special magnets, ensures greater power, longer operating time, and durability of the power tool. Advanced electronic systems constantly regulate the motor operation, optimising its power for the activity being performed, which translates into operational efficiency and maximization of battery operating time. The engine is protected against dust, metal particles and seizure. Tool-free assembly ensures a quick and easy blade replacement. The metal gearbox increases wear resistance and ensures the precision of the mechanism. Thermal protection protects the device against overheating during operation. The soft grip handle enables a more secure grip on the power tool and dampens vibrations during work. Rubber bumpers protect the device from mechanical damage. The OneAccuSystem 18V enables the battery of your choice to be used in a wide and varied range of power tools for the toughest jobs.

### Characteristics

- Foot length adjustment.
- Foot tilt angle adjustment.
- Tool-free handle.
- Rotational speed: 0-3000 RPM.
- Blade stroke: 28 mm.
- Tool-free blade holder.
- Maximum thickness of wood to be cut - 150 mm.
- Maximum thickness of steel to be cut - 10 mm.
- Brushless motor Metal gearbox housing.
- Metal gear mechanism.
- Smooth speed regulation.
- Anti-vibration soft grip handle.
- Protective rubber bumpers.
- Motor protection against dust, metal particles and seizure.
- Overheating protection.
- Weight 3.22kg.
- Battery to be purchased separately.
- 3-year warranty upon registration of the device.
- OneAccuSystem.
- Voltage 18 V
